

Department Of Economics
University of North Carolina – Chapel Hill
Application for Graduate Study

Abstract of Mathematics, Economics, Statistics, and Other Relevant Courses

INSTRUCTIONS: Please list your mathematics, statistics, economics, and other relevant courses.

If you are enrolled at an educational institution while applying for the Graduate Program, we would prefer that you submit a transcript after your Fall grades are available as long as they are available by the application deadline.

You may type the information on the form or fill in by hand and scan. If you scan the form, be sure to check that it is legible.

Example:

Mathematics Courses: *Please list courses in reverse time order. Include courses for which you are registered in the spring of 2017. Add additional rows/pages as necessary.*

Course Number	Course Title (& short description if the title is not descriptive)	Grade	Sem-ester*	School
444	Ordinary Differential Equations		S17	UNC-Chapel Hill
532	Math 6 (Introductory Real Analysis)	B+	Su16	University of Wisconsin -- Madison
320	Math 3 (Multivariable Calculus)	A-	F14	UNC-Chapel Hill

* F14 denotes fall semester 2014, S17 denotes spring semester 2017, and Su16 denotes summer 2016. Schools on the quarter system often denote the quarters as fall, winter, and spring for which you may use F16, W16, and S16.
