

ECON 522 – Fall 2022

Professor Stan Rabinovich

Topics in Macroeconomic Analysis of the Labor Market

Course Description

This is a topics course in macroeconomics, focusing on the macroeconomic analysis of the **labor market**.

The field of macro-labor is concerned with all aspects of the labor market that have economy-wide relevance. In particular, it studies questions related to determinants of employment and unemployment, allocation and reallocation of workers in the economy, and variation in income across individuals and over time. Both in the long run and in the short run, the labor market is of central importance for the national economy, for many key policy questions, and for individual well-being.

This course is an introduction to macro-labor. We will cover topics such as long-term trends in income, employment, and hours worked; trends in income inequality; search models of unemployment; the effects of fiscal stimulus; the labor market experience of the Great Recession of 2007-2009 and the economic crisis triggered by COVID-19; and analysis of policies such as the minimum wage and unemployment insurance.

The course is *model-centered*. We will try to develop theories of the labor market and use them to interpret things we observe in the world, as well as to formulate predictions about the effects of policies. We will also spend some time asking questions such as: Why do we need a model at all? What makes a good model? How do we validate or refute a model using existing data?

Lectures: Tuesdays and Thursdays, 12:30 – 1:45 PM, in Gardner 007.

Instructor: Stan Rabinovich.

Email: srabinov@email.unc.edu *Office:* Gardner 302

I will aim to respond to student emails in 48 hours. If you have not received a response to your email in 48 hours, please **email me again**.

Office hours: Tuesdays, 9:30-10:30 AM. I will hold weekly walk-in office hours. If necessary, I am also available for office hours by individual appointment.

Pre-requisites: ECON 400, 410 and 420. I will assume knowledge of basic calculus concepts, such as derivatives. I will also assume knowledge of basic probability and statistics concepts, such as expected value, conditional probability, and standard deviation.

Materials

There is no textbook. Lectures are the primary source of material, so class attendance is absolutely essential. I will post lecture slides and occasional supplementary notes on Sakai. I strongly recommend reading the posted lecture slides before class whenever possible. However, reading the lecture notes does not substitute for paying attention in class.

Additional required readings may include: academic articles, Federal Reserve publications, online video lectures, and occasional popular press articles. You are expected to do the required reading (which will be announced in advance) before the class for which it is assigned. There will also be recommended optional readings.

Practice problems. I will post practice problem sets. They will not be collected or graded, but I strongly recommend that you do all the problems, as they are excellent practice for the exams. Solutions to the problems will be posted. I may sometimes go over some selected problems during class as a review.

Announcements. You should regularly check the Sakai site for the course. I will use it to post all lecture slides, practice problems, and announcements regarding required reading for the coming classes.

Grading.

1. *Midterm Exams* (25% each): There will be 2 midterm exams, given in class on Thursday, September 28, and Thursday, November 2. Exams are closed-book.
2. *Policy paper* (10%): There will be a final paper, in which you will analyze a policy question of your choice. The final paper may be done individually or in groups of 2. If the paper is done in a group of 2, both students will receive the same grade for the paper. Detailed instructions for the paper are below. The paper will be due on Wednesday, November 30, and will be submitted through Sakai; exact submission time to be announced.
3. *Final Exam* (40%): There will be a cumulative final exam given on Friday, December 2, at 12:00 PM. This date and time is mandated by the University Registrar. The final exam is closed-book.

Grading Curve. The median grade will be near the B/B+ break. That is, approximately half the class will receive a letter grade of B+ or above, and approximately half the class will receive a grade of B or lower.

Instructions for final paper:

1. Select a normative policy question.
 - The question needs to pertain to the labor market, broadly defined.
 - The policy must not be one that we discussed in detail in class.
 - The question needs to be normative, i.e. containing the word “should.”
 - The question should be focused and specific to a country, e.g. “Should the minimum wage be raised in the US?” rather than “Should the minimum wage be raised?” or “What should be the minimum wage?” You can pick any country.
 - The question can be something under debate right now, something that has been under debate in the past, or something that you think should be on the policy agenda.
2. Provide institutional detail on the policy in question in the country you chose. If applicable, provide background on the policy debate. Explain why you think the policy question is important.
3. Describe the costs and benefits of the policy change under consideration.
4. Analyze the effects of the policy using the economic model(s) developed in class. Your analysis has to contain at least one graph and/or equation.
5. Discuss what is known empirically about the effects of the policy. I do not expect you to conduct empirical analysis of your own, but instead search for existing articles on the topic and find out what is known in the literature.
6. Summarize what you have learned about the pros and cons of the policy (in other words, whether the benefits outweigh the costs or vice versa). If the existing information is inconclusive, what additional evidence would you need to be able to draw a conclusion?

The paper will be graded based on the presence and quality of the above 6 items.

The paper may be at most 10 pages.

The paper may be done individually or in groups of 2. If the paper is done in a group of 2, both students will receive the same grade for the paper. Clearly indicate the names of both students on the paper.

The paper will be submitted online through Sakai and will be due on Wednesday, November 30.

Course Policies

University Policy on Attendance:

By University Policy, no right or privilege exists that permits a student to be absent from any class meetings, except for these University Approved Absences:

1. Authorized University activities
2. Disability/religious observance/pregnancy, as required by law and approved by Accessibility Resources and Service and/or the Equal Opportunity and Compliance Office (EOC)
3. Significant health condition and/or personal/family emergency as approved by the Office of the Dean of Students, Gender Violence Service Coordinators, and/or the Equal Opportunity and Compliance Office (EOC).

Missed exam policy

If you are unable to take an exam due to a **University-approved absence** (see above), that exam will be dropped and your grade will be based on your other completed work.

If you do not have a valid excuse, you will receive a score of zero for the missed exam.

Re-grade request policy

If you believe that there was a mistake in the grading of your exam, you may request a re-grade. Re-grade requests must be made by email within one week of receiving the graded exam. If an exam is submitted for a re-grade, I reserve the right to re-grade the entire exam. As a result, your grade may go up, go down, or remain the same.

Changes to the Syllabus

I reserve the right to make changes to the syllabus, including due dates. If changes are made, they will be announced as soon as possible. In particular, changes may be made to the syllabus if the course is forced to switch to remote format.

Course Outline (tentative)

1. Labor supply

Income and substitution effects in labor supply. Applications to tax and transfer programs such as Universal Basic Income. Applications to long-term trends in aggregate hours worked, female labor force participation, division of labor within the household, and the effects of technological progress as well as the recent COVID-19 pandemic.

2. Production and labor demand

Production technology. Labor demand in perfectly competitive and monopsonistic labor markets. Applications to labor market regulations such as the minimum wage. Applications to the effects of technological progress on long-term trends in productivity, wages, and the labor share of income.

3. Wage inequality

Effects of technological progress on the college premium. Skill-biased technical change. Capital-skill complementarity. Residual wage inequality. Occupational reallocation of labor.

4. Consumption and saving

A two-period model of consumption and saving. Ricardian equivalence. Effects of credit constraints. Applications to studying the effects of fiscal stimulus programs.

5. Labor market frictions

Understanding data on labor market flows in the United States. Search models of the labor market: job search effort, reservation-wage, and equilibrium search model. The Beveridge curve. Applications to the effects of unemployment insurance, jobless recoveries, mismatch, and the experience of the 2007-2009 Great Recession as well as the recent COVID-19 pandemic.

University of North Carolina at Chapel Hill
Information for Undergraduate Classes
Fall 2022

Attendance Policy

University Policy: As stated in the University's [Class Attendance Policy](#), no right or privilege exists that permits a student to be absent from any class meetings, except for these University Approved Absences:

1. Authorized University activities
2. Disability/religious observance/pregnancy, as required by law and approved by [Accessibility Resources and Service](#) and/or the [Equal Opportunity and Compliance Office](#) (EOC)
3. Significant health condition and/or personal/family emergency as approved by the [Office of the Dean of Students](#), [Gender Violence Service Coordinators](#), and/or the [Equal Opportunity and Compliance Office](#) (EOC).

Class Policy: Instructors may work with students to meet attendance needs that do not fall within University approved absences. For situations when an absence is not University approved (e.g., a job interview or club activity), instructors determine their own approach to missed classes and make-up assessment and assignments.

University Approved Absence Office (UAAO): The [UAAO](#) website provides information and FAQs for students and faculty related to University Approved Absences.

Note: Instructors have the authority to make academic adjustments without official notice from the UAAO. In other words, it is not required for instructors to receive a University Approved Absence notification in order to work with a student. In fact, instructors are encouraged to work directly with students when possible.

Honor Code

All students are expected to follow the guidelines of the UNC honor code. In particular, students are expected to refrain from "lying, cheating, or stealing" in the academic context. If you are unsure about which actions violate the honor code, please see me or consult honor.unc.edu.

Spring 2022 Course Delivery (College of Arts and Sciences)

As long as it is possible to do so safely, we will be meeting in person this semester. I understand the ongoing COVID-19 pandemic may require changes to this plan and will be monitoring the situation closely. If I need to change the format of the course temporarily due to outbreaks of illness, I will announce this via email and the course Sakai site.

Mask Use (In-Person Instruction Modes)

This semester, while we are in the midst of a global pandemic, all enrolled students are required to wear a mask covering your mouth and nose at all times in our classroom. This requirement is to protect our

educational community—your classmates and me—as we learn together. If you choose not to wear a mask, or wear it improperly, I will ask you to leave immediately, and I will submit a report to the [Office of Student Conduct](#). Students who have an authorized accommodation from Accessibility Resources and Service have an exception. For additional information, see [Carolina Together](#).

Acceptable Use Policy

By attending the University of North Carolina at Chapel Hill, you agree to abide by the University of North Carolina at Chapel Hill policies related to the acceptable use of IT systems and services. The Acceptable Use Policy (AUP) sets the expectation that you will use the University’s technology resources responsibly, consistent with the University’s mission. In the context of a class, it’s quite likely you will participate in online activities that could include personal information about you or your peers, and the AUP addresses your obligations to protect the privacy of class participants. In addition, the AUP addresses matters of others’ intellectual property, including copyright. These are only a couple of typical examples, so you should consult the full [Information Technology Acceptable Use Policy](#), which covers topics related to using digital resources, such as privacy, confidentiality, and intellectual property.

Additionally, consult the University website “[Safe Computing at UNC](#)” for information about the data security policies, updates, and tips on keeping your identity, information, and devices safe.

Accessibility Resources and Services

The University of North Carolina at Chapel Hill facilitates the implementation of reasonable accommodations, including resources and services, for students with disabilities, including mental health disorders, chronic medical conditions, a temporary disability or pregnancy complications resulting in barriers to fully accessing University courses, programs and activities.

Accommodations are determined through the Office of Accessibility Resources and Service (ARS) for individuals with documented qualifying disabilities in accordance with applicable state and federal laws. See the ARS Website for contact information: <https://ars.unc.edu> or email ars@unc.edu.

Counseling and Psychological Services

CAPS is strongly committed to addressing the mental health needs of a diverse student body through timely access to consultation and connection to clinically appropriate services, whether for short or long-term needs. Go to their website: <https://caps.unc.edu/> or visit their facilities on the third floor of the Campus Health Services building for a walk-in evaluation to learn more. Students can also call CAPS 24/7 at 919-966-3658 for immediate support.

Title IX Resources

Any student who is impacted by discrimination, harassment, interpersonal (relationship) violence, sexual violence, sexual exploitation, or stalking is encouraged to seek resources on campus or in the community. Reports can be made online to the EOC at <https://eoc.unc.edu/report-an-incident/>. Please contact the University’s Title IX Coordinator (Elizabeth Hall, interim—titleixcoordinator@unc.edu), Report

and Response Coordinators in the Equal Opportunity and Compliance Office (reportandresponse@unc.edu), Counseling and Psychological Services (confidential), or the Gender Violence Services Coordinators (gvs@unc.edu; confidential) to discuss your specific needs. Additional resources are available at safe.unc.edu.

Policy on Non-Discrimination

The University is committed to providing an inclusive and welcoming environment for all members of our community and to ensuring that educational and employment decisions are based on individuals' abilities and qualifications. Consistent with this principle and applicable laws, the University's [Policy Statement on Non-Discrimination](#) offers access to its educational programs and activities as well as employment terms and conditions without respect to race, color, gender, national origin, age, religion, creed, genetic information, disability, veteran's status, sexual orientation, gender identity or gender expression. Such a policy ensures that only relevant factors are considered and that equitable and consistent standards of conduct and performance are applied.

If you are experiencing harassment or discrimination, you can seek assistance and file a report through the Report and Response Coordinators (see contact info at safe.unc.edu) or the [Equal Opportunity and Compliance Office](#), or online to the EOC at <https://eoc.unc.edu/report-an-incident/>.

Diversity Statement

I value the perspectives of individuals from all backgrounds reflecting the diversity of our students. I broadly define diversity to include race, gender identity, national origin, ethnicity, religion, social class, age, sexual orientation, political background, and physical and learning ability. I strive to make this classroom an inclusive space for all students. Please let me know if there is anything I can do to improve. I appreciate suggestions.

Undergraduate Testing Center

The College of Arts and Sciences provides a secure, proctored environment in which exams can be taken. The center works with instructors to proctor exams for their undergraduate students who are not registered with ARS and who do not need testing accommodations as provided by ARS. In other words, the Center provides a proctored testing environment for students who are unable to take an exam at the normally scheduled time (with pre-arrangement by your instructor). For more information, visit <http://testingcenter.web.unc.edu/>.

Learning Center

Want to get the most out of this course or others this semester? Visit UNC's Learning Center at <http://learningcenter.unc.edu> to make an appointment or register for an event. Their free, popular programs will help you optimize your academic performance. Try academic coaching, peer tutoring, STEM support, ADHD/LD services, workshops and study camps, or review tips and tools available on the website.

Writing Center

For free feedback on any course writing projects, check out UNC's Writing Center. Writing Center coaches can assist with any writing project, including multimedia projects and application essays, at any stage of the writing process. You don't even need a draft to come visit. To schedule a 45-minute appointment, review quick tips, or request written feedback online, visit <http://writingcenter.unc.edu>.

Grade Appeal Process

If you feel you have been awarded an incorrect grade, please discuss with me. If we cannot resolve the issue, you may talk to our departmental director of undergraduate studies or appeal the grade through a formal university process based on arithmetic/clerical error, arbitrariness, discrimination, harassment, or personal malice. To learn more, go to the [Academic Advising Program](#) website.
