

APPLICATION NOW OPEN: Unlock the Mysteries of the Human Brain: Join UNC-EPIC Summer Camp on Network Data Analysis and Neuroscience [\[FLYER\]](#)

We are thrilled to invite you to participate in the **UNC Education Program of Intelligence and Connectomics (UNC-EPIC) intensive 5-day summer camp!** Our program is designed to provide you with hands-on experience and mentorship in the analysis of connectome data, bridging the gap between theoretical knowledge and practical expertise. Participants will be introduced to advanced techniques in brain processing, analyzing, and visualizing structural and functional connectome data, all within the context of addressing real-world challenges in neuroscience and substance use.

This program is ideal for **undergraduates, graduates, and postdocs** eager to advance their expertise in neuroscience data analysis. Students from underrepresented minority groups in STEM are strongly encouraged to apply!

Participant Benefits:

- Personalized Academic Mentorship
- Skill Acquisition in data management, analysis, and visualization
- Real-World Problem-Solving curriculum

Financial and accommodation support are available. Assistance is available to cover part of the costing of participation for those demonstrating financial need or outstanding merit. Indicate your interest in your application.

Project Webpage: <https://www.unc-epic.org/>

Apply Now (Due by 4/1/2024): <https://forms.gle/yC5u6Pfts1ZFhQxn8>

Program Dates: 5/20/2024 – 5/24/2024

We look forward to welcoming you to our program and exploring the vast potential of connectome data analysis together!

Best Regards,

UNC Education Program of Intelligence and Connectomics (UNC-EPIC)

EDE 2024 Cohort Announced

Expanding
Diversity *in*
Economics
UChicago
Brookings

A PROGRAM OF

[2024 Cohort Announced for the Expanding Diversity in Economics Summer Institute](#)

The [Becker Friedman Institute for Economics \(BFI\)](#) at the University of Chicago, in collaboration with the [Hutchins Center on Fiscal and Monetary Policy at the Brookings Institution](#) are pleased to announce the [2024 cohort](#) of the Expanding Diversity in Economics (EDE) Summer Institute.

2024 EDE Cohort by the Numbers

The cohort comprises 45 undergraduate students from 34 institutions across the United States.

91% are freshmen or sophomores

30% self-identify as Hispanic or Latinx

60% are Pell Grant recipients or have a household income under \$20k/year

62% are female or nonbinary

29% self-identify as Black or African American

42% are first generation college students

The EDE program was launched by BFI in 2021 and aims to increase diversity in economics through finding and supporting outstanding undergraduates who are interested in the field. Through the EDE Summer Institute, BFI and the Hutchins Center are dedicated to fostering a new generation of academics and professionals who draw on the tools of economics to offer new perspectives and research ideas, and eventually make a positive impact in the world.

The EDE Summer Institute will take place from June 6 to June 29, 2024, with two weeks of programming on the UChicago campus followed by one week in Washington, DC, hosted by the Hutchins Center. **Meet the 2024 EDE cohort [here](#).**

For more information visit: bfi.uchicago.edu/ede/ or contact EDE Program Director Quentin Johnson at summerecon@uchicago.edu.

Ceteris Paribus Call for Editors

Are you interested in Economics research?

We are Ceteris Paribus: The Undergraduate Journal of Economics at Carolina, student organization whose purpose is to publish and promote undergraduate research in Economics at UNC. We have just published our first volume and we're looking for editors for our next two issues. We're currently looking for applicants to our editorial staff, who will review papers for our Summer and Spring publications. If you're interested in research in Economics, this is a great opportunity for you and we encourage you to apply. Due to the need to understand both fundamentals and research models, editors will need to have taken Econ 400 and the corresponding core course(s) for their area of interest. That being said no prior research experience is necessary to get involved.

Please apply at the following link we will be accepting applications until **Friday March 29th**:

https://unc.az1.qualtrics.com/jfe/form/SV_3EG0nEHZSDTbaVE

We look forward to working with you and getting involved with research. If you have any further questions about the journal feel free to reach out to the chief editors, Avani Pradhan (apradhan@unc.edu) or Maggie Yuan (xyuan@unc.edu) or our faculty advisor Dr. Christopher Roark (cjroark@unc.edu).

QFE Application

We are pleased to announce the release of the application for the 2024-2025 cohort for the Department of Economics, Credential in Quantitative Financial Economics (QFE).

What is the QFE?

The Credential in Quantitative Financial Economics or QFE is an academic curriculum designed to help students prepare for careers in quantitative finance, whether that be in industry, academia or the public sector. The program has a focus on applied finance and is perfect for individuals interested in either finance or statistical analysis. The credential requires an application and completion of several courses over the course of the academic year. These courses culminate in the creation of a capstone research paper in quantitative finance via Econ 525.

Funding permitting there will also be required external speakers that will allow students in the credential to both network with professionals and researchers, and to gain a broader perspective on applications outside of UNC.

What are the benefits of the QFE?

The QFE is designed so each course builds off the other prerequisite courses to provide a streamlined curriculum. In addition, the curriculum is designed to give you an introduction to coding in Python via the practicum. For individuals interested in quantitative applications in finance Econ 525 provides a guided opportunity to engage with data via a research project. Ultimately the goal is to help students build applicable skills in data analysis and a better grasp of how these skills apply to financial markets in particular. Ultimately it provides a good foundation for skills that students who are going on to careers in finance have found beneficial in interviews and in practice with future employers in finance.

What courses are required and when are they available?

The required courses for the credential are:

Econ 425: Financial Economics

Econ 470: Econometrics

Econ 525: Advanced Financial Economics

Econ 493: Practicum in Financial Economics (1 credit hour)

Econ 525 and Econ 493 are taught only in the spring and only individuals in the QFE cohort for that year are enrolled in those courses.

Econ 425 is taught in the Fall semester. Econ 425 and Econ 470 are both strict prerequisites for the spring course.

A typical schedule to complete the credential in one year is to take Econ 425 and Econ 470 in the fall and then Econ 525 and Econ 493 in the spring. That being said both Econ 425 and Econ 470 can be taken in the year prior to admittance into the cohort. If you are admitted you will be enrolled automatically in the spring for Econ 525. Econ 425 has seats reserved for QFE admitted individuals to ensure that students can complete the credential in the calendar year of admittance.

How do I apply and how large is the cohort?

Application requires filling out a qualtrics survey and uploading a copy of your transcript. We will be looking for a cohort of between 35 and 45 students for the coming year. Preference will be given to students who will be graduating before the next application cycle which will be in the following spring.

Application Link (Deadline 4/5/2024):

UCS Internships Found Here Newsletter – March

Thank you for viewing the [University Career Services Internships Found Here](#) newsletter! Remember that the categories listed below are recommended for the majors listed, but they are not all exclusive to those majors. It's recommended that you consider each internship deadline, but APPLY EARLY!! We encourage you to view all internships listed and to discover more through [Handshake](#) or [schedule an appointment](#) with a Career Coach for assistance with your search.

2024 Summer Bioinformatics Internship at CSL (only graduate student: master's or PhD or graduating senior)

- Deadline: April 18, 2024
- Compensation: \$20-30/hour
- Location: Hybrid or on-site; Waltham, MA
- US Work authorization: Accepts OPT/CPT
- Qualifications: Seeking Graduate student currently enrolled full-time in a Master's/PhD Program, or Senior in undergraduate program in Bioinformatics, Computational Biology, Data Science or a related field.
- Application: [Apply here](#)

Summer Data Strategy and Operations Internship at GSK

- Deadline: April 22, 2024
- Compensation: Paid
- Location: Hybrid; Durham, NC
- US Work authorization: Accepts OPT/CPT
- Qualifications: Familiarity with SQL and/or data visualization tools (e.g., Tableau, Power BI) is a plus; Strong analytical and problem-solving skills
- Application: [Apply here](#)

Clinical Immunology Intern at Asklepios BioPharmaceutical, Inc (Ask Bio) - for pre-med students

- Deadline: April 26, 2024
- Compensation: Paid
- Location: On-site; Philadelphia, PA

- US Work authorization: Accepts OPT/CPT
- Qualifications: Must be pursuing a BA/BS degree in Biological Sciences or Pre-medical related track.
- Application: [Apply here](#)

Environmental Health, Safety and Sustainability Intern at Boehringer Ingelheim Co. (open to graduate students)

- Deadline: May 28, 2024 (apply early!)
- Compensation: \$20-30/hour
- Location: On-site; Ridgefield, CT
- US Work authorization: Accepts OPT/CPT
- Qualifications: Must be a current undergraduate, graduate or advanced degree student in good academic standing; Major should include coursework in any of the following: sciences (i.e., chemistry; biology), engineering, environmental studies, sustainability, or occupational health and safety.
- Application: [Apply here](#)

Data Science Summer Intern at ADP, Inc.

- Deadline: May 30, 2024
- Compensation: \$30-40/hour
- Location: Hybrid; Alpharetta, GA
- US Work authorization: Accepts OPT/CPT and visa sponsorship eligible
- Qualifications: Currently enrolled in degree program in Computer Science or related quantitative discipline such as: Data Science, Statistics, Mathematics, Engineering, Physics, Economics, Computational Biology, Biostatistics, etc; Expected to graduate in Spring 2025.
- Application: [Apply here](#)

Health Science Consulting Intern at Paustenbach and Associates (only for MPH, MSPH, MS, DrPH, PhD)

- Deadline: June 5, 2024 (apply early!)
- Compensation: \$4 - \$4,500/month
- Location: On-site; Denver, CO
- US Work authorization: Accepts OPT/CPT
- Qualifications: Enrolled in or recent graduate of an MPH, MSPH, MS, DrPH, PhD, or related program in toxicology, epidemiology, environmental health, industrial hygiene, biostatistics, or a related field.
- Application: [Apply here](#)

Summer Intern at Rise (for math, statistics, econ, comm, business related majors)

- Deadline: August 13, 2024 (apply early!)
- Compensation: Paid
- Location: Remote
- US Work authorization: Accepts OPT/CPT

- Qualifications: A degree (or pursuing one) in marketing, operations, business, communications, statistics, economic, math or other relevant degree; Tech savvy (comfortable with Google Drive tools, Office, PowerPoint, Excel) and eager to learn new applicable systems (CRM).
- Application: [Apply here](#)

UNC Health intern - ISD Administration

- Deadline: August 22, 2024
- Compensation: \$18.50/hour
- Location: Hybrid; Raleigh, NC
- US Work authorization: Required
- Qualifications:

Major/degree concentration in Information Technology, Engineering and/or Business; Ability to communicate with and influence business and technical staff

- Application: [Apply here](#)

Artificial Intelligence Intern at Voya Financial

- Deadline: September 6, 2024 (apply early!)
- Compensation: \$23-30/hour
- Location: Remote; based in US
- US Work authorization: Accepts OPT/CPT
- Qualifications: Incoming juniors, seniors or graduate students in computer science, data science, or computational linguistics/social science/business programs;
- Application: [Apply here](#)

Fixed Income Research Associate internship for Summer 2025

- Deadline: March 22, 2024
- Compensation: Paid
- Location: Hybrid; Merrimack, NH
- US Work authorization: Required
- Qualifications: Class of 2026 Bachelor's degree candidates; Interest in growing knowledge of fundamental research and investment management
- Application: [Apply here](#)

Governance, Risk, Compliance & Audit Intern at SAS - Analytics Software & Solutions (graduate student preferred)

- Deadline: March 24, 2024
- Compensation: Paid
- Location: Hybrid; Cary, NC
- US Work authorization: Required
- Qualifications: Graduate students are preferred. Looking for the following majors: information technology, information science, legal studies, business, or other related fields; must be passionate, authentic, with strong communication skills.
- Application: [Apply here](#)

2024 Business Analyst Intern at Amazon

- Deadline: April 12, 2024
- Compensation: \$22.84/\$51.63
- Location: On-site; based in various US locations
- US Work authorization: Required
- Qualifications: Must be at least 18 years old; Basic to advanced knowledge of TABLEAU/Power Query, intermediate (e.g., vlookup) / advanced Excel skills (e.g., Write/edit VBA), and a basic to advanced knowledge of SQL (all join types, group by, order by, calculated columns); Preferred majors are business, computer, data engineering, economics, finance, engineering, mathematics, machine learning, science, statistics, and symbolic systems
- Application: [Apply here](#)

Blue Cross Blue Shield Summer 2024 Internship: General Business

- Deadline: April 18, 2024
- Compensation: \$20-30/hour
- Location: On-site; Columbia, SC or Springfield, IL
- US Work authorization: Accepts OPT/CPT
- Qualifications: Must have a minimum of 12 semester hours earned in Business Administration/Management, or other job related majors and must be currently enrolled in college and working towards obtaining at least a 4-year degree in the above listed fields
- Application: [Apply here](#)

My STEM Career at GLS – A Student's Journey- Virtual Panel Discussion

Panel Discussion - Virtual Information Session. Join us for a virtual panel discussion on March 26th from 12:00pm ET-1:00pm ET for "My STEM Career at GLS – A Student's Journey". This engaging virtual information session will feature insights from five former college graduates who will share their journey from student to technology professional at GLS. Hear directly from

March 22, 2024

our team members about their experiences in IT/Development, Finance/Treasury, and Analytics/Data Science. If you have any questions, contact Casey Jordan, cjordan@glauto.com

Who: Open to all students interested in careers at GLS in STEM and Accounting/Treasury

How to join: https://app.joinhandshake.com/events/1511763/share_preview

Deadline: RSVP by Monday, March 25, 2024

Lead for North Carolina 2024-2025 Cohort 6 Fellowship

The Lead for North Carolina Fellowship is a launching pad for a lifelong career of leadership and public service. We are looking for our state's most outstanding young people who aspire to positions of significant public responsibility in their communities, states, and country, and who are committed to leading with courage and integrity. Visit <https://lfnc.sog.unc.edu/> for more information. If you have any questions, contact Liam Hysjulien (liam@sog.unc.edu)

When: April 12, 2024

Eligibility Guidelines: Possess a high school diploma or GED equivalent - and a Bachelor's Degree by May 2024.

How to join: <https://apply.workable.com/leadfornc/j/4BA6707E22/>

Carolina Fantasy Basketball Experience

The Carolina Fantasy Basketball Experience will be this summer in Chapel Hill, NC! I wanted to know if anyone on campus would be interested in volunteering at the experience?

Who: College student or faculty

When: Friday, June 7th, Saturday, June 8th, and Sunday June 9th

Where: Dean E. Smith Center (300 Skipper Bowles Dr, Chapel Hill, NC 27514)

Time: Friday, June 7th: 10am-6pm, Saturday, June 8th: 8am-5pm, & Sunday, June 9th: 8am - 1pm

For those who are interested in volunteering, email Ellen Gray egray@g3marketing.com or Nick Holliday (nholliday@g3marketing.com) directly.

Are you looking for work experience to prepare for your next internship? Micro-Internships are paid, short-term, and professional experiences. They are like condensed internship experiences, where one project will be less than 40 hours of work. Most projects are remote, entry-level projects from real companies locally and across the nation.

Oh, and not to mention that all projects are paid!

You can [create an account for free on the Parker Dewey website](#) and start browsing through available projects. You must be above 18 years old to apply but no other prior experience is required (for certain projects, specific skills may be preferred). Non-US Citizens, International Students and Non-Documented Students are eligible to apply to all projects. Check out some of the highlighted projects below to get started!

Using Artificial Intelligence in Private Equity at Ashlar Capital

Research and identify: Deep dive into AI applications relevant to 1) small businesses and 2) private equity firms to identify opportunities to leverage AI in both traditional internal firm processes as well as deal sourcing, due diligence, portfolio management and reporting.

- Pay: \$800
- Due Date: 04/05/2024
- Desired skills: Excel, Powerpoint, Research

Workflow Automation Support - HubSpot at Flexkeeping

Assess, design, and optimize internal processes using HubSpot's automation tools such as workflows and sequences. The goal is to identify areas for improvement, streamline processes, and utilize automation to its fullest potential. We want to better setup our pipelines and add workflows to automate steps (example would be when a deal is closed, the workflow automatically creates a duplicate deal in the onboarding pipeline)

- Pay: \$350
- Due date: 03/22/2024
- Desired skills: N/A

Lemenet Alematae Logo Design at Girlie Pop Co

Need someone to be artistic via the computer and be able to capture my drawing into usable size(s), possibly teach me to resize as needed on my available applications

- Pay: \$200
- Due date: 04/08/2024
- Desired skills: Social Media, Adobe Illustrator
