

- Two of the following non-ECON electives: COMP 110 (or 116), MATH 347, 381 (or COMP 283), STOR 415, 435 (or 535)

The study of economics, like a tree, begins as a solid foundation with roots in the soil, then branches out in many directions, and yields much fruit (produced with patience... and a little weathering of the storms).

# A UNC-CH Economics Major through the lens of a tree...

### Reap the Rewards of a good foundation and enhanced understanding and application

• If interested in pursing a Ph.D. in Economics, talk to a faculty member about grad level econ courses and recommended supplemental courses

## **Build upon the Foundation**
